## Pedigreed Seed.

When seed grain is advertised as pedigree seed, it should mean two things: first, that the record of that particular strain is known from its origin; second, that it is rich in the qualities that make it superior to other selections of the same sort.

In order that the term pedigree may have its proper significance it to those who wish to purchase seed grain of high quality, the following outline is given of the essential methods in the primary selection work of pedigree varieties or strains of grain. Before seed grain can be termed pedigree it must be descended from a single plant; that particular plant must have been a superior plant to others of its kind and must have had the ability to transmit the high yield and the desirable characters for which it has been selected. This superiority can only be determined by careful observation at the time of the first selection and by a careful test under uniform conditions with the parent or other standard varieties. Also this selected strain must be watched closely during the multiplication period for the appearance of false heads or the breaking up of the variety. This is the continual work in the propagation of pedigree seed and unless it has been selected in accordance with the above methods, the word pedigree should not be used.

Apart from those who are associated with the experiment stations there are but few men in Canada who have the facilities and the knowledge essential to perform the primary selection work in the production of pedigree seeds. Any observant person can, however, obtain pedigree seed and by the maintenance of a seed plot and the careful roguing out of false heads and chance impurities, preserve the purity and quality of his seed grain that it may continue to rank, as pedigree seed. As the production of pedigree strains and varieties is practically confined to the various Dominion and Provincial Experiment Stations, any so-called pedigree seed that does not trace back to these sources, or is not registered in the Canadian Seed Growers' Association should not be purchased as such, without carefully inquiring into its origin.

Pedigree seed bears the same relation to the grain growing industry as pedigree breeds bear to the live stock industry, and its use is necessary if a grower desires to maintain the yield, purity and quality of his grain.

## Renewal of Duty on Tractors.

Ottawa, Dec. 24.—The request of the Canadian Manufacturers' Association as recently expressed by a resolution passed at Toronto that the duty on farm tractors be replaced, is exciting some interest at the capital. The situation is that the duty never really has been removed but an ordinance passed on Feb. 7, 1918, provided for its revision by the customs department for a period of one year. In other words, the duty is refunded to importers of farm tractors but exceeding \$1,400.00 per unit.

Should no action be taken by the government prior to Feb. 7 next, the duties on imported tractors, as well as the duties on meat cattle and traction attachment dealt with in the same order-in-council, will again be collectable. Should parliament not meet before February, an extension of the period of revision of duties can be provided for only by a supplemental order-in-council.

## For Sale or Trade.

Large Deering Drill. Big barn, 10 x 24, and garage, 10 x 48. Close to school. Will sell for cash or trade for stock. Willing to deal for house and three lots or include the whole thing. Will trade for land—Chancy Morey, Bow Island.

## A New Year's Gift.

Many parents are manifesting not a little concern over what kind of a gift they will give a child for the New Year. Their intent to give something useful and will confer a lasting benefit. Hence their concern over the subject.

They may give an altogether appropriate gift in the form of War Savings Stamps, which cost 25¢ each, and at any time are worth the money paid for them in addition to a little over 4¢ per cent compounded interest. They are probably a good better than the ordinary gift, which usually depreciates in value. These stamps, however, become more valuable as time goes on.

Those who have not \$4 in cash may buy a War Savings Stamp for a Thrift Stamp, start a child on the way to securing a War Savings Stamp. Indeed, a Thrift Stamp is the best gift that can be given in the purchase of a War Savings Stamp. The habit of saving thus formed will on the child a world of good in the future.

## WINNIFRED.

Frank R. Hills and R. R. Harper spent Xmas in Medicine Hat.

Mr. J. H. Atley spent Xmas with friends enjoying the rustic atmosphere on the farm.

I. C. Freeman returned from St. Paul, Dec. 23d, just in time to spend Christmas at home. Mr. Freeman reported excellent success in shipping his cattle.

Paul Beuning returned from St. Paul Monday where he went shipping cattle. Paul was taken with influenza and had to give up the cattle and return to St. Paul to receive medical help.

Mr. John Antoniuk is reported quite sick with the grippe and an operation was necessary. Much sympathy is expressed for him.

Mr. John Antoniuk and his wife are spending Christmas with her parents.

Halton Fisher of the R.C.A.F. returned from Toronto Monday looking excellent. Halton speaks in high praise of the treatment received at camp.

Mr. and Mrs. Dan Moore, Medicine Hat, Mr. and Mrs. Jas. Lawson, Mr. and Mrs. Harry and Mrs. and Mr. J. H. Castle, and K. K. Bergan, of Wimblford. All excellent Xmas dinner at the home of Mr. and Mrs. M. J. Collins.

Mr. and Mrs. Joe Masini have lost another girl, this being the third child that has died from influenza within the last month. The baby, who is in a dangerous condition, 11 miles south of Wimblford. Mr. Vibfred, has reported the death of Vibfred, has reported his sickness with the flu.

Lars Helland's family is quite sick with influenza, also two other Helland families all have the flu.

Miss Myrtle Freeman is sick in Medicine Hat hospital with influenza, Miss Freeman being being held to the hospital by Dr. Myrtle. She was reported out of danger today. Her many friends were glad to hear this.

## HAYCROFT.

We regret to learn that Gordon Evans, who is doing military service duties in Calgary, is lying dangerously ill in the military hospital there from influenza. It is the heartfelt wish of all friends and acquaintances that he will recover.

Cookister Roberts is drilling for water. He anticipates a flowing well and his many friends wish him success.

## Town of Bow Island.

Will those who have band instruments belonging to the town kindly return them at once, as an attempt is about to be made to re-start the town band.

JAS. W. REID, Mayor.

## Municipal District of Bow Island No. 94.

Applications for Seed Grain. Farmers residing within the Municipal Districts of Bow Island requiring Seed Grain for 1919 are requested to apply to the Agricultural Department at once to the Secretary-treasurer.

## Tax Notice.

Notice is hereby given that all Taxes due the Municipal District, if paid before DECEMBER 31st, 1918, no penalty will be added.

A. F. WERTS,  
Sec'y-Treas.

## President Wilson Favors A League of Nations

**Paris.** — After four days of gathering views of leaders in France, President Wilson's report says he has seen no reason to change his belief that the foundation of a league of nations is inseparable from the actual peace treaty itself.

In his statement, the president said, in explaining his definition of "freedom of the seas" will reassure Premier Lloyd George that he has no intention of demanding reduction of the British navy at the expense of the neutrality of the empire, but will emphasize his feeling that the plan of a league of nations will strengthen the empire.

In all his conferences the president has taken opportunity to express his view, it is said by those who are near him, to speak for him, that no one nation is entitled to assume the role of master, or dictate the manner or the conditions of the representations of others. That is to say, the considerable headway is being made in this direction and that the members of the American mission are now seeing their way clearly. They express conviction that delegates will accept the difference in a spirit of accommodation.

No decision has yet been reached as to the number of delegates which will represent each country at the arrival of the British delegation in Paris. The claims of the British colonies to participate in the congress is receiving serious consideration. At the same time it is feared that unless some limitation is placed on the number of delegates the conference will become too large to accomplish results.

It is understood that the British government proposes to have five delegates at the peace table and that the U. S. will have three representatives at the conference.

### GERMAN COLONY QUESTION

**British White Paper Shows Native  
Averse to German Rule**

**London.** — Correspondence relating to the natives of the German colonies in Africa, which the present government has issued as a white paper 4-3, furnishes unquestionable evidence that the native desire is being handed down to the Germans that the thing most in their desire is that they should continue under the Union Jack.

Lord Liverpool, governor-general of New Zealand states that the high chiefs of Samoa are practically unanimous in wishing to remain under British rule. Their reasons are that it was the English people who first brought a government to Samoa, and that the administration of the Samoan Government on the government emblem, that representative Samoans are consulted by the administration before changes are made in the regulations, and their wishes are not to practice any form of self-government. This is the chief reason why perhaps this last reason is the most significant of all—they now wish to remain in the colony.

There is one small chief of the Maoris, who, while he opposes the German rule, because he states "you could rule your own people as you wished. You could beat your wife and child as you wished." While the other Maoris do not like German rule, they are, or perhaps turn them away, or perhaps turn them also."

Overwhelming evidence in the British white book, however, proves the small chief of Mukaba to be decidedly in the minority.

#### Shot Without Cause

**Paris.** — Spanish investigators, who have conducted an inquiry into the shooting of Frenchmen at war at German prison camps at Lamsalca, have forwarded their report to the French government authorities, according to the *Paris Journal*. The notes in the report declare that the attitude of the commanders did not justify the ruthless methods of the Germans. While at Lamsalca they erected a theatre, and before leaving the prison they arranged for a dance. While they were there upon German sentries were fired upon by German sentries.

#### Premier Boleslaw Arrows in Britain

**London.** — General Boleslaw, premier of South Africa, and his party, arrived at Tilbury from Cape Town. They were welcomed on board their ship by Captain Younger, representing the secretary of state for the colonies, and the son of the late Capt. Louis Botha. The party afterwards proceeded by special train to London. Upon arriving at St. Pancras station, Gen. Boleslaw had given a great ovation by a large crowd which had gathered to meet him.

### Criticizes Peace Plans

**SAYS TOO MUCH TIME HAS  
ELAPSED WITHOUT MAKING  
HEADWAY**

**Regiments of Specialists and Tons of  
Archives Will Have Tendency  
to Cause Confusion Says  
Tribune's Public Relation**

**Paris.** — The conservative *Journal des Débats*, publishes a criticism of the allied statement for having allowed so much time to elapse without making any progress toward peace. The article is causing a sensation in diplomatic circles.

"In thirty-six days," says the paper, "they could at least have agreed on a general truce with Germany. Responsible men should long ago have had the solutions all ready in their heads. It appears, however, that this is not the case. The allies are still silent over the question of armaments of all kinds of specialists belonging to the various administrations of the allied states, and the declaration of hundreds of tons of archives, these men seem to be doing nothing to forward the cause of the Paris hotels in which travellers even now are unable to find room. Not only are the archives of two hemispheres being dumped into the hands of the Allies, but the whole situation is being directed on the laws of the Bois de Boulogne."

"If each allied bureaucracy wants an special factory to inundate us with unnecessary printed materials, then both Goblet and Berthas, will succumb under the weight of paper and of documents and agreements will have to be reduced to two pages three or four times a week because of the lack of paper."

"Pure madmen—have engineers brains more deeply affected? It looks as if we are going to dounder indefinitely in diplomatic opposition. The multitudes of specialists and pyramids of portfolios are not the only ones who are confused. This confusion is the chief reason why the submarine which is a prisoner above the submarine when it is captured."

Fisher, captured when the *Prinz Eugen* was sunk in Atlantic, Sept. 30, Fuller said the submarine lived unusually well the supplies they took from their victims. They were all enthusiastic sailors. They were bitterly opposed to the revolution.

On Oct. 11, the U.S.-K-2 and other submarines in these waters were ordered back into Kiel on Oct. 20. On Oct. 20, a crew of 100 men of the U.S.-K-2 were called back to Kiel when the submarine was passed to Italy.

Each will desire to justify his presence and use his portfolio. Each will outline his own solution. We are greatly pleased to see that our friends who are disposed to collaborate in the preparation of peace but in our opinion their chiefs would have acted wiser in leaving them behind and impregnating themselves simply with the conclusions of their reports."

### Many Women Voted in Britain

**Expected They Were Either for  
Lloyd George or Sup-  
ported Labor**

**London.** — So far the great surprise of the elections is the heavy women's vote. They took little part in the election campaign, but when the day of the poll was passed to meet meetings which existed then, but which have since quite changed. Order No. 14, Jan. 19, 1918, controlled the "spread" on the retail sale of bacon and ham, and the price was principally part of the conditions obtaining.

Order No. 47, June 5, 1918, is inoperative at this time of the year, and fixed maximum prices to be charged consumers in Alberta, Saskatchewan and Alberta, for dressed, summer-weight white fish.

Control of the wholesale maximum prices and profits on bacon and shorts, eggs, butter, cheese, milk, flour, bread, meat, and the like, was imposed by the Royal Canadian Mounted Police for Lloyd George, or for labor.

The negative program of official Liberalism is making no appeal to them.

Generally speaking, they were well satisfied with the policies of the Liberal party, but some dubious individuals are reported, the best being of a wife insisting on entering the poll with her husband, to see that he voted for her. One woman was disappointed when her husband afterward that she would not be paid.

Parliament meets Jan. 21.

#### Received Special Honorary

**Paris.** — Le Petit Journal states that on the representations of the minister for reconstruction, two Germans named Roedelius, have been arrested in the Saar Valley. A large amount of silverware, all of which had been stolen from French factories.

The charge was that the Germans did not justify the ruthless methods of the Germans.

While at Lamsalca they erected a theatre, and before leaving the prison they arranged for a dance. While they were there upon German sentries were fired upon by German sentries.

#### Farmer's Farce Unrest

**London.** — As a session of the Grand Council of war passed notice of the unrest that exists among farmers, citizens and returned soldiers, showing the awakening of the conscience of the masses that embitters their feeling against the class."

### Cool Reception From Germans

**Sullen Looks Discouraging Given as  
Canadian Garrison Further  
Into Country**

**London.** — "The further we get into Germany, the more coldly polite is our reception," writes a correspondent with the Canadian corps, but the men sometimes raise their hats to our officers and flag. The people on the whole are behaving well, some even adopting an ingratiating attitude.

"Field Marshal Hindenburg's proclamation to the inhabitants, against impelling the safety of the forces or their operations, is posted in every town and village, and every crowd reads it.

"I have seen a great evidence of impoverishment among the civilians. There are herds of cattle and other stock around most of the farms and houses are well stocked."

"I am told that the wife of a German merchant, who speaks English fluently. She could not believe that the Germans in 1915 crucified Canadians or sank hospital ships, and thoroughly accepted all propaganda sent out from Berlin."

### Paris Suffered During the War

**Aerial Raids and Long Range Gun  
Caused Great Loss  
of Lives**

**Paris.** — Figures are now made public for the first time regarding the number of persons killed during German air raids, and by long range gun fire. In 1914, 1915, 1916, 1917, the French lost 1,211 casualties from aerial bombs.

In 1914 forty-five bombs were dropped on Paris, 20,000,000 francs of damage were caused.

In 1915, seventy bombs, 62 of them on March 20 fell on the city. In 1916, the enemy employed 61 bombs against Paris, and in 1917, eleven, during the last ten months of the war there were 1,211 casualties from 396 bombs.

Airplanes and Zeppelins dropped 28 bombs, killing 100 persons and inflicting 1,000 injuries.

The long range gun fire killed 168 soldiers.

Paris, Jan. 20.—Good Friday more than 100 persons were killed.

### JUGO-SLAWS PROTEST

**Trouble Grows Among Actions of Italy**

**Paris.** — The tension between the Italians and the Jugo-Slavs continues, incident following incident. It may be well to review the situation which is now in the minds of the conferees.

On the evening of the same day that Austria turned over its fleet to the Jugo-Slavs an Italian submarine sank the *Vittorio Veneto*, the fleet ship of the Austro-Hungarian fleet, at the mouth of the Adriatic.

The Italian fleet, which had been engaged in an act of open hostility, the Jugo-Slavs had a mere trick on Austria's part which caused the Italian admiral to believe the allies intended to deliver a certain number of ships to Italy.

The Jugo-Slavs, however, admitted that the allies had recognized the Jugo-Slavs government at the time that Austria gave up its fleet.

When Austria may afterwards have sold or done had no importance.

The second incident occurred at Fiume.

The Italians are said to have prepared to land at Fiume under the pretense of arriving at other naval detachments, yet they did so. The Italians explained that this had no significance as the other allies arrived soon afterwards.

The Slavs, however, also came far beyond the limits of occupation set by the terms of the armistice.

The Jugo-Slavs protest and threaten to occupy Lubach.

As for the problem as to the future of Germany and Russia, the attitude should be decided in accordance with the decisions reached by the allied conference but she should be given the right to decide.

As for the problem as to the future of Germany and Russia, the attitude should be decided in accordance with the decisions reached by the allied conference but she should be given the right to decide.

For the problem as to the future of Germany and Russia, the attitude should be decided in accordance with the decisions reached by the allied conference but she should be given the right to decide.

### May Advocate Sinking of Captured German Ships

#### Plan Uprising In Ireland

**Bolshevism Trying to Undermine  
Basic of Civilization**

**London.** — Probably the greatest danger now confronting the world is Bolshevism. Everywhere it is trying to undermine the basis of civilization.

It is to be hoped that the American representatives, who it is added, feel that such a position would result in avoiding contention and material support. President Wilson's declaration that the war was not based on aggression or for the protection of property.

Britians through Sir Eric Geddes, first lord of the admiralty, had presented a memorandum to the British cabinet to de-sac the captured or unrendered warships and it is declared, will continue to support the United States, although it is expected some of the lesser naval powers will demand that the prize shall be distributed.

**Paris.** — American delegations to the peace conference are sinking the surrounding economy avarages and to resist any proposition to distribute them on the basis of naval losses. This, Americans insist, must be left to those in the Americas with the American representatives, who it is added, feel that such a position would result in avoiding contention and material support. President Wilson's declaration that the war was not based on aggression or for the protection of property.

Britians, through Sir Eric Geddes, first lord of the admiralty, had presented a memorandum to the British cabinet to de-sac the captured or unrendered warships and it is declared, will continue to support the United States, although it is expected some of the lesser naval powers will demand that the prize shall be distributed.

### Another Victim of Hun Kultur

**One of the Old Contemptibles  
Presented His Speech**

**London.** — The *Morning Post* publishes the following communication from a correspondent: "The prime minister, his speech to women at Queen's Hall, is reported to have said: 'We are a nation of quidnuncs. Perhaps in a case like the Hun Kultur, justice, if it be adequately applied, may prove as effective as vengeance.'

A young friend of mine, present at the meeting, told me that the other day there appeared near Queen's Hall the lone figure of a British soldier, a prisoner of war turned artist by his German gaoler.

Having his forehead branded with the word 'Germany,' his tongue had been mutilated so as to render him speechless; the finger of his hand was missing. Dumb, helpless, sitting in rows, in a means of identification, he save his service ribbon which revealed him as one of the 'old contemptibles,' he presented a picture a spectacle which I have never seen before in my life. He was a German soldier, he had been captured by the British, and he had been to sights of horror and suffering by four years of campaigning. His informant says, tears came involuntarily into his eyes and 'he wept like a child.'

### Guard Interests of Veterans

**Great War Veterans on the Reparation Committee**

**Ottawa.** — The Great War Veterans Association has appointed R. H. Maxwell, Winnipeg; W. P. Tait, Halifax, and D. Longfellow, Ottawa, an advisory committee to co-operate with the representatives and employment committee of the Great War Veterans Association.

German New Guinea which is now occupied by the British, should not be returned to Germany. The principles of the armistice, particularly the fundamental principle of reparations, should be universal in order to obtain a permanent peace in the world.

Other points which the marquis makes are as follows:

"That the return of Samoan Islands which have caused various diplomatic controversies between Great Britain and the United States and Germany, should be decided in accordance with the will of the former two powers with the representatives and employment committee of the Great War Veterans Association.

German in Flanders, which is now occupied by the British, should not be returned to Germany. The principles of the armistice, particularly the fundamental principle of reparations, should be universal in order to obtain a permanent peace in the world.

The relations relating to the maintenance of order in Siberia should be left to the allied conference but all the allied powers should refrain from any action or demand for action against the Bolsheviks.

The relations between China and the Southern Islands, which is now occupied by Japanese navy should be left to Japan.

The relations relating to the maintenance of order in Siberia should be left to the allied conference but all the allied powers should refrain from any action or demand for action against the Bolsheviks.

The Chinese Civil War.

**Ogden, Utah.** — Perfected by J. M. Browning of machine guns for airplanes so that a flyer can, by pressing one trigger, fire three machine guns simultaneously, shooting 3,600 shots a minute at the same target, was demonstrated in a recent test.

**Admiralty Thanks Civil Employees**

**London.** — The admiralty board has issued an order to all dock yards, victualling yards, ordnance, torpedo and mining depots, and other civil establishments of the navy, expressing grateful appreciation of their valuable services throughout the war.

## Reassuring Statement Of Bank of Montreal

**Assets Now Exceed Five Hundred and Fifty Millions — Interest Bearing Deposits Total \$345,000,000 — Bank Lends Full Assistance to Governments and Industry**

Montreal, Dec. 24 (Special).—Since the cessation of hostilities developments in Canada have been of a character that go to show that the Dominion will be able to look after its own business.

First was the astounding success of the Victory Loan, indicating Canada's ability to provide the credits that were required to enable the other countries to continue and effect large purchases of food stuffs and supplies.

Now comes the Bank of Montreal with the most reassuring statement of its financial position and situation.

The very large resources at its command now amounting to \$500,000,000, and the large assets will result in every Canadian having great faith in the ability of the Dominion to meet its obligations during the trying period of readjustment.

The Victor loan showed how the people of the country are behind the Bank of Montreal by its position, indicating that it stands prepared to help in every way its contributions that are likely to arise.

It is at times like the present that the public is most anxious to follow what the Bank can best appreciate.

### Growth During Year

It's a fact it is somewhat difficult to compare the Annual Statement in the usual way with that of the previous year, as the Bank of Montreal has taken place of the Bank of British Columbia. Still the very greatest strides made in the regular business during the twelve months after the formation of the Bank of Montreal has been able to lend the Imperial and Canadian governments the following requirements of Canada-wide and industry.

The growth of the bank over the progress made during the past few years can be appreciated from the fact that in the first year of the war, the total assets stood at \$289,562,675, while to-day they have increased to \$414,415,278, or 44 per cent., and now stand at \$370,351,000, being \$90,000 above what the total assets were four years ago, or \$1,091,613, as compared with \$1,083 at the end of the previous year.

### Large Wheat Crop

With the largest wheat crop ever grown last year in the United States is promised by the enormous acreage sown this fall. The acreage is almost 16 per cent. larger than last year, and the total is 49,227,600 acres. A crop of 765,000,000 bushels, or 20 per cent. more than the best record, is foreseen.

### May Strike Again

Montreal police and firemen, who strike annually, are now contemplating another suspension of the three officers of the police department.

Director Frenshay, Assistant Director Mann and Chief of Detectives Blaney, have not been discharged as promised.

### Minard's Liniment Cures Diphtheria.

#### Under Marital Law

Cologne.—Cologne has come under rigid martial law for the first time since the British troops arrived here, and the people have begun to realize what formal occupation is going to mean.

### \$100 Reward, \$100

The readers of this paper will please note that science has been able to prove that the disease known as diphtheria is being greatly influenced by constitutional causes. Minard's Cough and Cold Hair's Cough Cure is taken internally and externally, and has a decided influence on the face of the system, thereby destroying the disease. It is a safe remedy, and the strength by building up the constitution so that the body can resist the disease. Our printers have no such faith in the cure that it will be given to the public free of charge. Address: F. J. CHENEY & CO., Toledo, Ohio, sold by all druggists.

### GENERAL SNUTS RESIGNS

#### Honored Distinguished Service

#### and Employment Service

London.—Lt.-Gen. Jan Christian Smuts has resigned as minister of the war cabinet on the ground that the end of the war has terminated the need of his services, according to the Express.

Jar. Christian Smuts was born in 1870 and has long been a figure in the political life of South Africa. He became a practicing attorney at Cape Town in 1891, and in 1895 became in command of the Boer forces in Cape Colony.

In 1897 he became colonial secretary for the Transvaal and in 1916 became commander of British forces in East Africa, fighting against the Germans, his success in that campaign being remarkable. In January, 1917, the British government named him a member of the imperial war conference as representative of the Union of South Africa. In October, 1917, he entered the war cabinet. His service has made what was termed a "record flight" to Washington, according to an announcement by Lt.-Col. H. H. Harmon, who accompanied him.

Aviator Flies Through Dense Fog Steering by Compass

Minicola, N. Y.—Steering by compass through a dense fog, which for several hours has hung over this section of the country, Capt. James J. Gans, an aviator at Hazelhurst Field, has made what was termed a "record flight" to Washington, according to an announcement by Lt.-Col. H. H. Harmon, who accompanied him.

Canadian Prisoners are Well

London.—Sergeant Major Ranningham telegraphs the Daily Mail from Holsten, Germany, where the 4th Battalion, South African Corps of Indian war prisoners are interned, advising that all Britishers are fairly well, but are anxiously awaiting repatriation. Postal communication has ceased, the sergeant major states.

### WELCOMED AS VICTORS

#### With Entusiasm

London.—The correspondent in Berlin of the Daily Express, dealing with the return of the German army, says the scenes of enthusiasm marking the homecoming of the troops is ending. Troops are coming home at the rate of 10,000 a day, says the correspondent.

"Every day Herr Ebert, the chancellor, takes his place on a platform opposite the French embassy. He addresses the homecoming men and the bands play martial music, while the crowds cheer and wave their handkerchiefs. 'Herr Alles,' brought us into the street this morning. To my amazement and to the apparent amazement of the French officials grouped in the window of the embassy, the crowd gathered outside the Brandenburg gate to the old tune. Later I heard it played continuously by cavalry, infantry and artillery swept by. Regimental flags were crowded with battle-worn men. The women everywhere around the steel helmets and their tunics and guns were covered with flowers.

### Sat Up in Bed to Get Her Breath

Palpitation of the heart, shortness of breath, inability to lie on the left side, feelings as if suffocating, faint spells, tired, weak, worn out, feeling, involuntary twitching of the limbs, especially of the hands, at all points to the fact that either the heart or nerves, or both, are not working properly. These symptoms should be remedied immediately so as to avoid a complete break-down.

Milburn's Heart and Nerve Pills will bring energy to the weakened heart, tone up the tired, over-tired nerves.

Mr. Charles Stevens, Chemist of Great Road, N. W., writes: "I have been a great sufferer from nervous trouble, particularly the heart, which was so bad I had to sit upright to get my breath. I am not a doctor, but I consulted one, and a doctor after doctor, also several different remedies, but got no relief from them. My mother suggested to me trying Milburn's Heart and Nerve Pills, and I began taking very much better. I took in three boxes, and now I have a good sound sleep, and can lie on my left side without trouble."

Milburn's Heart and Nerve Pills are 50¢ a box at all dealers, or mailed direct on receipt of price by The Milburn Co., Limited, Toronto, Ont.

They are the best heart pills.

Minard's Liniment Cures Diphtheria.

Under Marital Law

Cologne.—Cologne has come under rigid martial law for the first time since the British troops arrived here, and the people have begun to realize what formal occupation is going to mean.

Jar. Christian Smuts was born in 1870 and has long been a figure in the political life of South Africa. He became a practicing attorney at Cape Town in 1891, and in 1895 became in command of the Boer forces in Cape Colony.

In 1897 he became colonial secretary for the Transvaal and in 1916 became commander of British forces in East Africa, fighting against the Germans, his success in that campaign being remarkable. In January, 1917, the British government named him a member of the imperial war conference as representative of the Union of South Africa. In October, 1917, he entered the war cabinet. His service has made what was termed a "record flight" to Washington, according to an announcement by Lt.-Col. H. H. Harmon, who accompanied him.

Aviator Flies Through Dense Fog Steering by Compass

Minicola, N. Y.—Steering by compass through a dense fog, which for several hours has hung over this section of the country, Capt. James J. Gans, an aviator at Hazelhurst Field,

has made what was termed a "record flight" to Washington, according to an announcement by Lt.-Col. H. H. Harmon, who accompanied him.

### GOVERNMENT POWERLESS

#### Deserters From Army Terrorize Inhabitants of Berlin

Paris.—The Berlin central government is powerless to preserve order and deserters from the army terrorize the inhabitants, according to a correspondent of the Journal, who has returned to Berlin.

Robberies and attacks on houses are rapidly and apartments and shops are robbed in midday. Commissions of all kinds, he continues, public and military order and justice blackmail.

Red flags are flying all over the city and business is going on as usual.

The war has caused a great rush of women into the public service.

Dread of Asthma makes countless thousands miserable. Night after night when brief respite is given the mind is still in torment from continual coughing.

Dr. John D. Remedy, a London physician, has changed all his Relief cones, and at once, while future attacks are still to be expected, afflicting one in a state of peace and happiness he once believed he could never hope to experience and sold almost everywhere.

Up To Full Strength

Royal North West Mounted Police to Be Increased

Ottawa.—Sanction has been given to order the commanding officer of the Royal North West Mounted Police to increase its authorized strength of 1,000 men.

In addition to its present duties in the territories, the force is further assigned to duty in Alberta, Saskatchewan, Manitoba, and the western portion of Ontario, including in military district No. 1. The force is also to be the only federal police force operating in such territory.

The duties of the force are to be: the enforcement of federal laws.

Enforcement of all orders in council passed under the war measure act for the protection of public safety.

Generally to aid and assist the civil powers in the preservation of law and order whenever the government of Canada may direct.

There is no more effective weapon than Milburn's Heart and Nerve Pills.

Australia Economizing

Melbourne.—With a view to economy, the Commonwealth has decided to reduce work at the naval bases and the arsenal. The Commonwealth has also decided to withdraw its fixed prices for meat.

There is no more effective weapon than Milburn's Heart and Nerve Pills. They will not only clear the stomach and bowels of accumulated poisons, but will give a very strong appetite for children, regulating the infantile system and maintaining the strength of the system.

There is nothing in their composition that will injure the most delicate stomach. There is nothing that they contain that will interfere with the absorption of the food.

They are the best heart pills.

Minard's Liniment Cures Gargle in Cows.

Sending Money to Soldiers

Ottawa.—The public is reminded that the Canadian Red Cross Society, which maintains a fund to keep garrisons in touch with their men, to know when falls end and winter begins, where scurvy runs riot and big mountain peaks to heaven which may be lost at any moment, and not as many as possible of postage stamps, will be used to mail postcards to all the men in the field.

There is nothing in their composition that will interfere with the absorption of the food.

They are the best heart pills.

Minard's Liniment Cures Diphtheria.

Do you like the glorious days of summer, when the sun is so milder and temperate, that it keeps scurvy from attacking the body?

Some of our Canadian women are bone down physically and mentally. They suffer from backache, dragging sensations, very nervous and pale complexion, and are subject to fits of convulsions. They will be told to take a favorite prescription of Dr. John D. Remedy, which has been known for the past half century.

Weak women should try it now. Don't wait until you are ill. Send Dr. V. M. Hayes, Buffalo, N. Y., for trial price.

dred and sixty (160) acres more or  
less.

The above property will be offered  
for sale free from encumbrances.

B. L. CHILDELEIGH,  
Sheriff,  
Judicial District of Medicine Hat.

## WAS ON BYNG'S STAFF.

Prince Arthur of Connaught now  
serves with Canadians.

Well-known throughout the Cana-  
dian Army Corps in France is Prince  
Arthur of Connaught, who has  
visited Canada. The prince came to  
the corps as one of Gen. Byng's staff  
officers. His appointment, bidding good-bye  
to the Canadians when he was de-  
puted to the King, to go on the spe-  
cial mission to Japan.

Unquestionably, friendly and demo-  
cratic, the prince is very popular  
with the Canadians, where  
he was a familiar figure in all parts  
of the country. His frankness and  
ease and devoid of circumstance in life  
are his chief qualities. His frankness  
and his appointment, bidding good-bye  
to suddenly discover that a certain  
man was a Canadian, and that a young English soldier attached  
to the corps, or even for a native-born  
Canadian, was none other than the son  
and heir of Canada's late Gover-  
nor-General, is a fact which the prince  
introduced to visitors it is not cus-  
tomary to mention his name. Hence  
the prince's frankness and friendliness  
to him who is.

Prince Arthur is an interesting  
man. All who sit next  
him at meals can testify to this. His  
fund of anecdotes about well-known  
men and women is well known.  
He is a good listener, a good  
book. Eager to learn the opinions of  
his neighbor on various matters, he  
will often say, "What do you think?"  
and then proceed to give his own  
views—views of uncommon  
interest, based as they are upon an  
extensive knowledge of the world and the men who do things. A  
warm admirer of Theodore Roosevelt,  
he is equally frank in his opinion of  
the prince, Japan, which country  
and whose people, he has learned  
since his arrival here, has always  
appeared most strongly to him.

When signing official documents  
in the course of his duties, the  
prince signs them in full, "P.A."—

Now the army signals have  
occasionally used letters of the  
alphabet and numbers, and put  
them in words, when sending messages  
over the field telephones. To avoid  
any possible mistake, certain  
letters somewhat akin to others are  
represented by a special word. For  
instance, over the telephone, the  
symbol "u" is "pup" or "dum"; the symbol  
"u" is "Emma"; hence the play upon  
the prince's name.

Prince Arthur, who was born after  
the fall of the Canadian corps after a  
series of eighteen months, went to  
the front in September, 1914—a few  
weeks before the battle of the Marne—and,  
with the exception of short  
leaves in England, has been there  
ever since. Through his rank, like that of  
other royalties who portion in the  
affairs of their own movements, has  
limited his prince to the staff job  
of adjutant-general. In Paris, and  
headquarters in France, he has been  
frequently in the trenches, and thus  
acquainted with the actualities of  
war. His knowledge of languages and wide  
experience make him most useful in  
the work of the Canadian corps. His  
move between the Canadians and the various  
British and French regiments  
and corps, and his wide acquaintance  
with the Canadian corps, make him  
regards most keenly that fortune  
has not permitted him a more active  
part in the war.

A Severe Winter.  
In a recent review of the severe  
winter of 1917-18 Dr. C. F. Brooks  
says that a temperature of 45° de-  
grees below zero was reached in  
Whitehorse, Yukon, at the mouth of the  
Yukon River, and that the observation, if  
authentic, establishes a "record" for  
North America. The lowest tempera-  
ture ever recorded in the Northern Hemisphere  
(regarding upper air observation) was  
90.4 degrees below zero Fahrenheit  
at Lake Baikal, Siberia, in 1892—  
Scientific American.

Located in Press Photograph.

As soldiers are forbidden to  
acquaint their relatives with their  
exact positions, somewhere in  
Pine Marten, Pine Marten, Wood-  
stock, hit upon a novel way to beat  
censorship. He had "just" received  
a postcard from home.

He wrote in reply: "I will look  
up the Sentinel-Review of the 2nd  
of July, 1918, will you see the  
ruined cathedral in this place."

Winning Stamps Has Close Call.

The fine bronze statue of a winged  
Mercury carrying a sheaf of grain,  
which was to be the centrepiece of  
an ornate mantelpiece, and Parlia-  
mentary pile, narrowly escaped de-  
struction by fire at Government Hill  
in October last month. The building in  
which it had just been cast was part-  
ly destroyed.

Elephant Eat Too Much.

The Fox Control Board at Winni-  
peg has been advised by Saskatchewan  
clergy that a baby elephant  
visiting his town with a travelling  
circus caused the death of nine  
people, namely, the Queen of  
England, the King of France, the  
Emperor of Russia, the Emperor of  
Germany, the King of Italy, the  
King of Spain, the King of  
Portugal, the King of  
Belgium, and the King of  
Saxony.

# BEATTIE'S GARAGE - - - BOW ISLAND

Genuine Ford Parts.

Accessories.

Repairs.

## Announcement.

### To all Owners of FORD Automobiles.

In a recent issue of "The Bow Island Review," the advertisement of the City Service Garage stated they had Repair Parts for FORD CARS.

We wish to draw your attention to the following :

The Ford Repair Parts carried in stock by the City Service Garage are NOT GENUINE FORD REPAIR PARTS, as we are the only Authorized Ford Dealers for this district, and we are the only Garage in this district that can secure GENUINE FORD REPAIR PARTS FOR YOU.

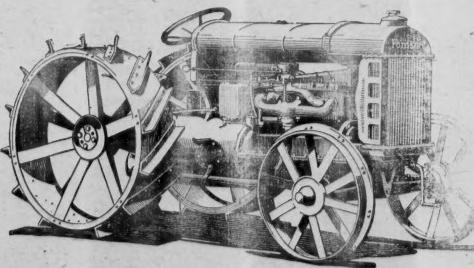

We can and will sell you GENUINE FORD REPAIR PARTS manufactured and tested by the FORD MOTOR COMPANY Limited, the manufacturers of the Famous Ford Car, and we sell them as cheap as they possibly can be sold when the material that is put into them is considered.

When you have any spurious parts placed in or on your car it immediately CANCELS THE GUARANTEE

of the Ford Motor Co. to replace free of charge any defective parts.

When you have your work done at the Authorized Ford Service Station you will get a guarantee that the work will be done as good—if not better—than it can be done at any other Service Station and you are sure of getting the GENUINE Ford Part that is needed for your car.

"WE WISH YOU ALL A HAPPY AND PROSPEROUS NEW YEAR."

Price \$950 f.o.b. Dearborn, Mich.

Be Sure You Get GENUINE FORD REPAIR PARTS. They Mean Satisfaction.

## EDITORIAL

## PEACE AND VICTORY

Rejoice, whatever anguish rend your heart,

That God has given to you the power To live in these great times, and bear your part.

In freedom's growing hour; That ye may tell your sons who see the light—

High in the heavens—their heritage "I saw the powers of darkness but to

I saw the morning break."

During the stress and anxiety of the more than four years that have passed since the fatal day of August 4, 1914, it was not always easy to decide whether or not our fathers that we now live in these times, great though we were, were any fraught with wonderful things for all mankind. Rather one would question whether or not they and their generation were called upon to bear the sorrows and suffering of the greatest war in history.

But now, at this Christmas time, first Christmas in a world at peace for many years, the people of Canada can rejoice, yes, and give thanks that to them has been given the priceless privilege of having lived in these great times and played a not unimportant part in the cause of peace.

Peace has come! But more than that, greater still, it is peace with victory—triumphant, complete, and we have reason to believe, lasting.

Our victory would have been but a hollow shell had it not been for the armies and navies of the allies, but because of the triumph of Right over Might, because of the principles of freedom, human liberty, principles on which civilization stands, we have been sustained and shall endure.

When over nineteen hundred years ago the angels sang of their rejoicing, "Peace on earth, good will towards men," it has seemed a mere mockery to sing that great anthem for four years.

But now we can sing it with renewed spirit and a greater faith, because the terrible struggle has been concluded, those great principles, which Christ came to the earth to implant in the hearts of men and died that they might ever live, have been reaffirmed in the blood of countless martyrs and the greatest sacrifices which the human race has ever been called upon to endure.

For the first time in centuries we can rejoice that in these times the symbol of the Iron Jack, the symbol of freedom and justice throughout the world, has replaced the flag of Turkey and oppression in the Holy Land, and the Cross is again in the sacred city of Nazareth.

Let us realize the truth, for a great truth it is, that this Christmas day of 1918 is the most momentous and memorable Christmas since the first Christmas. It is the first Christmas when the outlook for all mankind is brighter and happier than ever in the long history of the past. Autocracy and oppression, which has for long ruled in many parts of the world,

passing away. The principle of the right of man, the brotherhood of all men, the rights of the weak as well as the rights of the strong, shall have equal recognition and protection throughout the world.

To us has been accorded the glorious privilege of living in a time when we may see this day, but of having a part in hastening its coming. It has come through great sorrows and much suffering and sacrifice. It has left many a home bereft of loved ones, but it has enriched those homes beyond the dreams of avarice in all things really worth while and lasting.

And now let us rejoice that to us has been given the opportunity to share in the crowning glory of seeing the powers of darkness put to flight and the breaking of the bright new morning of a clearer and better world, and let us rejoice in the new spashine of gladness into every home and into all the activities of the workaday world. Let us prove worthy of the victory which, under God, those who dying gloriously, won for us.

## HUNS DECEIVED

Expected Britain to Sue for Peace Which She Didn't

Captain M. D. Moore, the German navy, is credited with discovering that the English have been guilty. They have deceived the Germans, the training German.

It is the way it happened, according to the Herr Captain. When the Germans started on their last campaign of frightfulness they made all sorts of promises as to making things better. The results were to their average of expectation. The sinking of 60,000 tons a month up to August last was enough "to bring England to reason, but it didn't." The Germans have not yet given up, but Germany effected a peace proposal, but "the British deceived us," says the Herr Captain.

Darn those British! What a shame it is when they don't keep their word in any way. If they had any respect for what is right and proper they would have called the war off then and there and there would have been rejoicing in Germany instead of waging it.

The British have been guilty of many wrongs, much for which they should do penance, but all of their crimes none is so black as in this case.

But, probably, John Bull is not to be pitied when blamed. It's almost a habit with him not to know when he is licked—from the New York Commercial.

## Assigned Difficult Task

Canadian Divisions Complete

With the Canadians in Germany—Canadian corps headquarters were established at Bonn on Dec. 11, one month after the signing of the armistice. The Canadian First Army's second division is now taking up its posts as a part of the second army on the right bank of the Rhine and the men welcome the end of their long pilgrimage.

It is a difficult task, and the fact that it is so, is due to the fact that the Second Army, and the fact that time is highly creditable to their spirit, endurance and organization.

A Pill That Is Pried—There have been many pills put upon the market and pressed upon public attention, but none has endured so long or met with such success as Dr. Chase's Kidney-Liver Pills.

They are made of a blend of dried roots, bark, resin, flowers, leaves, and fruit.

Dr. Chase's Kidney-Liver Pills are made by Dr. W. A. Chase, of Boston, Massachusetts.

Mr. F. L. Harris, Keatley P. O., Sask., writes:

I was suffering from liver trouble

and had a leprosy pimple under one shoulder-blade all the time, and was told to take Dr. Chase's Kidney-Liver Pills.

After taking them for a short time I could see the pain had left me and I commenced to eat in flesh, and by the time I had taken them for a week I was completely cured and felt like a new person.

My trouble was caused by constipation, heavy eating, and constipation.

I would advise any one suffering from liver trouble to take Dr. Chase's Pills a trial.

Dr. Chase's Kidney-Liver Pills are made by Dr. W. A. Chase, of Boston, Massachusetts.

Mr. A. F. Letts, South

Sask., writes:

I suffered from terrible headaches, so severe that I thought sometimes I would die.

Dr. George Fox, of London, was dealing with the question at conference with the British ministry of shipping, and an agreement on a number of important points has been reached.

Freight and passenger service between Canada and the Orient is to be re-established.

The steamer Asia, which had been delayed in Europe, is to transport war, will be sent back with cargoes to Vancouver or Hong Kong, and will then be released to their owners.

The six freight steamers between Vancouver and Australia will be sent back to their owners.

The steamer Asia will be sent back to its owners.

Soon, however, the shipping industry promises three ships between Asia and May, and thereafter a resumption of the old service.

In all these services private control of rates will be resumed as they were before the war, and the maritime freight service is likely, however, to remain for a considerable time under the control of the international maritime transport council, which has been constituted and controlling the shipping resources of the allied nations.

Rates and charges, which were

limited last year to from two to five per cent. of the cargo space, will be considerably increased, especially in eastbound ships.

We wish to take this opportunity of thanking our patrons for their business during the past year and will try to deserve it during the coming year.

The BOW ISLAND SADDLERY  
Diamond Tires and Auto Accessories,  
W. J. OLIVER, Proprietor.

## Local and General.

Miss McCallum, school teacher at Good Cheer, has been released from her engagement by the trustees and the school is now closed for the remainder of the winter.

The high cost of paper and printing material has forced newspapers to adopt more drastic measures to get sufficient revenue to cover the cost of production... Here is an example from the Bolton Enterprise:—Commencing December 1st a small charge will be made for all announcements of coming events appearing in the Enterprise. We have been forced to make this charge owing to the steadily increasing cost of producing the paper. The rate will be one cent per word per each insertion for all notices of church services, Box Cross meetings, Lodge and society meetings, concerts, etc. These notices will appear under a separate heading on our front page. The same charge of one cent a word will also be made for obituary notices and poetry. We are also making a slight change in the price of small ads, such as for sale, to rent, lost, found, strayed card of thanks, etc. The rate for these will be one cent a word with a minimum charge of twenty-five cents in each case. The rate for birth, marriage and death notices will be fifty cents.

Announcement was made a couple of weeks ago that Miss Isabel Whitney was raffling off a sweater, the proceeds to be devoted to St. Dunstan's Hostel, London, Eng. For the information of all and sundry it may be said that this institution has been organised for blinded soldiers and sailors. It is a magnificent house kindly donated by Mr. Otto Kahn, the well-known American financier, and at the present time about 364 men are receiving treatment. Mrs. Sidney Houlton of Calgary is the vice-chairwoman of the Blind Soldiers' Fund for Southern Alberta and Miss Whitney is giving her assistance.

Homer King returned to Bow Island last Tuesday the 21st just from Saginaw, Michigan, where he had gone to recruit the draft for the U.S. army but was prevented from doing so by a bad attack of influenza. After returning here he commenced

work at Wilmet and Henderson's garage but was compelled by sickness to return home after a few hours of work on Monday last.

Mr. and Mrs. Wilfred Henderson are expected to return home the beginning of the new year.

Isabel Whitney, L.A.B., is now accepting engagements to pupils for the pianoforte. She is also acting as agent to supply music.

The following have their names gazetted as Commissioners for Oaths: A. E. Weitz, Bow Island; W. A. Brower and O. D. Hanna, Gravelines; P. McCaskie, Endon; M. H. Smith, Winnifred; J. M. Gibson, Maleb. The following have been appointed official auditors: T. F. Fisher, J. R. Agar, A. E. Kendall, R. A. Parker, Winnifred; W. A. Bateson and A. F. Werts, Bow Island; Goo. H. Johnston, Burdett; O. S. B. Lait, Grassy Lake.

Lost—A small terrier pup, mostly all white, about three months old. Please return to J. Wallace, Bow Island.

Mrs. C. Fowler and daughter Mrs. S. Smith left last week to spend the winter at Vancouver.

A big box social and dance will be held in the Lansell Schoolhouse, one mile east of F. Reams, on Friday, January 3rd. Everybody invited.

Miss Velva Pederson left on Thursday for Louisiana where she will visit with her father's brother.

## Application for Lease of Road Allowance or Sur- veyed Highway.

NOTICE IS HEREBY GIVEN that John G. McLean of Bow Island has made application to the Minister of Public Works, Edmonton, for a lease of one mile of road allowance or surveyed highway, viz. North Boundary, South east corner of Sec. 11, Tp. 8, R. 11, w. of the 5th meridian, for a period of thirty days from the date of this notice.

Dated at Maleb, Alberta,  
JOHN G. MCLEAN, Applicant.  
December 27th, 1918.

## A Happy and Prosperous New Year to all.

I wish to thank one and all for the increased patronage I am being favored with and I shall endeavour to continue giving the same fair and square prices during the coming year.
